

Coronavirus (COVID-19) Update

At Rodman's, the safety and well-being of both our Customers and our Team Members is always our top priority. Rest assured that we are actively monitoring the Coronavirus (COVID-19) situation and are taking precautionary measures to aid in keeping our communities safe. As an essential service to our customers, we are committed to implementing best practices to help prevent the spread of disease so that we can be there when you need us.

To aid in prevention, we are taking the following precautionary measures to protect our Clients by providing our Team Members with a supply of:

- Hand Sanitizer
- Masks
- Single-use Gloves and Booties

Asking our customers if they have been diagnosed with COVID-19 or are ill and/or have travelled outside of Canada recently prior to entering their home.

Team Members will be keeping recommended safe social distance and will not be shaking hands with customers, as suggested by the Public Health Agency of Canada. Any Team Member who has flu like symptoms will be asked to contact the Public Health Agency and follow the COVID-19 testing protocol, including self-isolation where required.

The Public Health Agency of Canada (PHAC) recommends that we all take the following everyday precautionary measures to help prevent the spread of germs and viruses:

- Wash your hands thoroughly and often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer
- Avoid touching your face, eyes, nose and mouth
- Avoid close contact with people who are sick
- Stay home when you are sick
- Clean and disinfect frequently touched objects and surfaces
- Cover your mouth and nose with your arm when coughing and sneezing

Thank you for doing your part to help keep our communities safe, and for supporting one another as we navigate through this difficult time together.
